

FALCON

SINCE 1985

HULL

Our signature hulls with composite support structures are built to withstand the toughest tests. Through our racing background and years of testing, our hulls are made to last and can be used for both recreational and commercial industries. Choose between a **white, black or grey** hull.

DECK & FINISHING

We have standard decks and console layout options available. Fully customised deck layouts are also available upon request. Our seating and upholstery come standard with high quality **Spradling SILVERTEX®** material made to withstand all the elements.

What makes us unique? Driven by innovation and perseverance, we thrive on designing and refining every detail. Our hulls are designed purposefully, and tested thoroughly to make sure each and every component outlasts the competitors. Here are a few more reasons why investing in a Falcon will save you money in the long run:

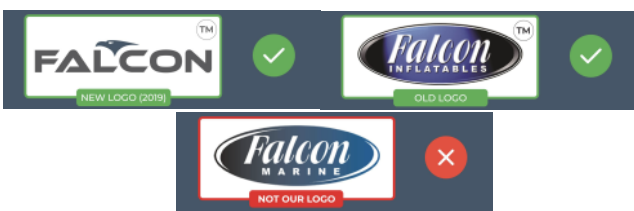

Why FALCON?

- With over 30 years of manufacturing experience, Falcon is one of the most experienced in the RIB industry.
- Falcon boats are manufactured using the latest technology and highest quality materials available and manufactured to meet and exceed international ISO 6185-3 Safety and quality standards.
- Falcon has an increasing global footprint, exported to 38 countries and counting.
- We use a fully thermo-welded tube construction that does not require pressure relief valves, giving you piece of mind for many years.
- Falcon boats are the first choice for professional boat users, including a host of Governments, Rescue, Police and other commercial users worldwide.
- Efficient and strong hull design means you are safe on the water with an exceptional dry and comfortable ride.
- Falcon RIBs come standard with marine grade all-weatherproof upholstery.
- We offer a range of heavy duty upgrades suited to your specific application.
- All marine grade stainless steel are manufactured to ISO9001 for exceptional quality standards.
- Falcon offers a standard 5 year warranty, extended to 10 years in South Africa.

Ταπετσαρία - Χρώματα

Our seating and upholstery come standard with high quality Spradling SILVERTEX® material made to withstand all the elements.

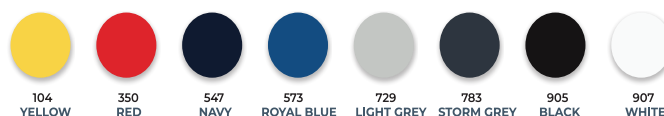

Ύφασμα Αεροθαλάμων - CE

All our Rigid Inflatable Boat (RIBs) tubes are fully thermo-welded with either European manufactured Valmex® or TPU (thermoplastic polyurethane).
